Extension Fish and Wildlife Specialists Workshop

Monday May 19, 2008 1:00 – 9:00PM
Lussier Family Center, Madison WI

Tuesday May 20 – 8:00AM – 12:00PM
Monona Terrace Conference Center

At the 2006 triennial Extension Fish and Wildlife Specialists Workshop in Big Sky, Montana, a decision was made to meet again in conjunction with the next ANREP Conference. We plan to do just that! Please plan to join your Extension Fish and Wildlife colleagues in Madison, Wisconsin for a 2-day meeting just prior to the ANREP Conference. Refer to the ANREP registration form to register for the Specialists Workshop. The modest registration fee will cover transportation, breaks, beverages, materials, and a social and pig roast/fish fry on Monday evening.

On Monday there will be discussions on national program leadership, interstate/regional collaboration, Extension wildlife events at the Miami TWS Conference and featured state programs followed by a social and meal. On Tuesday we will convene working groups and make plans for subsequent meetings. If you have ideas for agenda items or wish to present something to the group, please e-mail Scott Craven – srcraven@wisc.edu. Agenda and transportation information will be sent to all registrants. Don't miss this meeting; its unlikely Specialists will meet as a group again before 2010!
